Presents

International Conference on Sustainable Civil Infrastructure (ICSCI-2014)

October 17-18, 2014

Organized by

Department of Civil Engineering
Indian Institute of Technology
Hyderabad

Conference Objectives

Civil Engineering Infrastructure is an essential component of national's socio-economic development. Rapidly increasing costs of design, construction and maintenance of infrastructure calls for sustainability at each and every stage. Sustainable and resilient civil engineering infrastructure is the theme of the *International Conference on Sustainable Civil Infrastructure (ICSCI) 2014*.

Invitation and Call for Papers

Prospective speakers are invited to submit abstracts. Abstract submissions should be limited to one page. Once the abstracts are accepted, authors are requested to submit full length papers which will be peer reviewed to produce conference proceedings. Please note the following requirements for abstract submission.

Prospective authors should prepare and submit an abstract (in English) of not more than one (1) page (single spaced).

Include the full abstract/paper title. List the affiliation and complete contact information (mailing address, telephone and fax numbers, and e-mail address) of each author. Indicate the primary contact.

Papers accepted for final submission must be 6 to 10 pages (Even number of pages only).

Conference Topics

Conference papers and presentations will cover all types of infrastructure: roads, bridges, dams, levees, buildings and facilities, rail, waterways, transit, water and wastewater, aviation, ports, solid and hazardous waste. The topic areas to be addressed at the conference are:

- ◆ Recycling and reuse of pavement materials
- ◆ Sustainable geosystems
- ◆ Life cycle cost analysis and asset management
- ◆ Sustainable water management systems
- ◆ Mathematical and Reliability modeling of sustainability indicators
- ◆ Innovative sustainable infrastructure solutions
- ◆ Sustainability in Civil Engineering
- ◆ Any other relevant topic
